College of Engineering, Architecture and Technology

## **2019 Fiscal Year Annual Report**

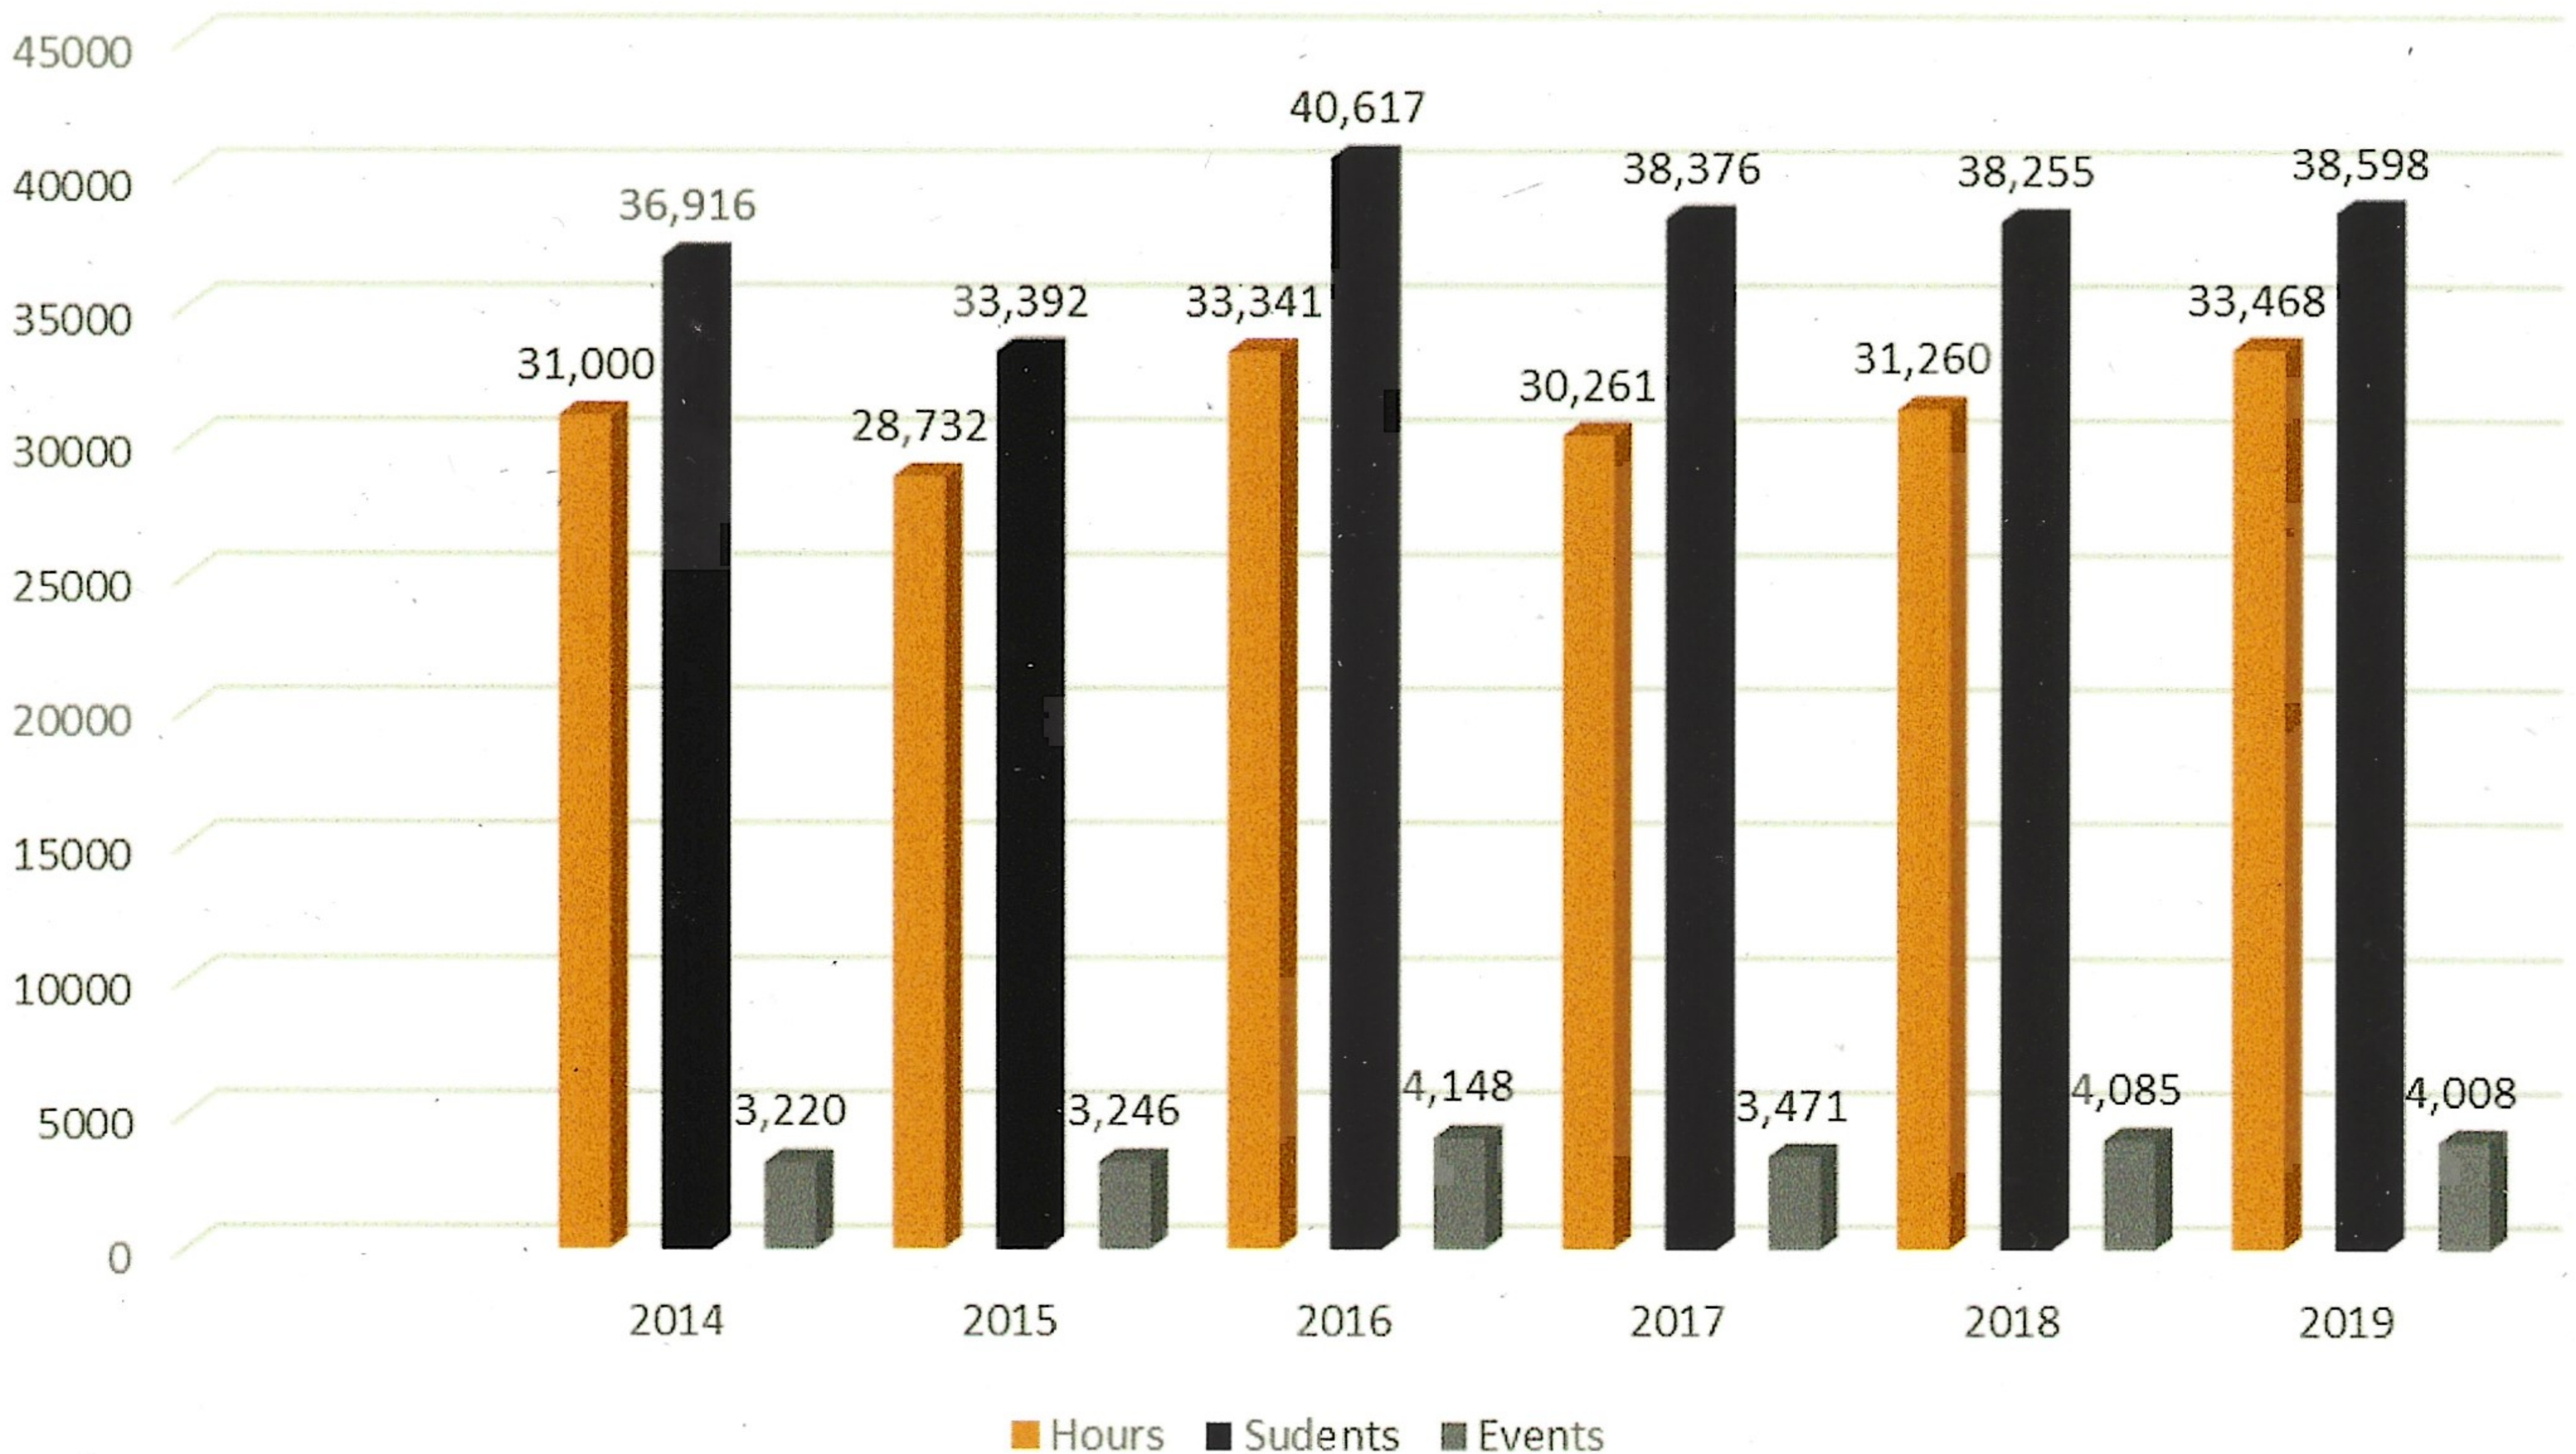

Friends,

This is my final annual report as Director of Fire Service Training. I want to dedicate my remarks to all the Oklahoma firefighters that give all they have to protect us as we go about our daily lives. It is our humble honor at Fire Service Training to go the distance, meet the need, do everything possible to bring top-notch, professional training to Oklahoma firefighters and other first responders! I also want to recognize the incredible staff at FST that spend almost every waking hour bringing training to these firefighters and other first responders! I am thankful for what these folks do and will always hold them in high regard! Thank you for all the hours worked, the miles driven, the long days, the frustrations felt, and the huge amount of pride that you put into each and every work day bringing high quality fire and emergency services related training to the State of Oklahoma! Carry on! Doc E

Dr. Erick Reynolds  
Director, Fire Service Training

## Hours/Students/Events: 2014-2019

Oklahoma State University  
Fire Service Training

2019  
Events

**391** trailer deliveries

**173,165** Miles Driven

## Statistics - 2019

**4,008** Events

Students attending training **38,598**

**33,468** Hours taught

Cities that held an event **289**

**1,430** Organizations

Counties **77**

Oklahoma State University Fire Service Training (OSU FST) was recently awarded an Assistance to Firefighters grant for a mobile, live-fire, liquefied petroleum gas simulator. This is a multipurpose simulator that will allow OSU FST to provide live-fire training that meets NFPA 1001 certification requirements for both Firefighters I and II. This prop also allows FST to take this training to rural areas where training facilities are not always available to fire departments. With this unit, OSU FST will be able to provide specialized training in the areas of controlling propane tank impingement fires, flammable liquid spill fires, pipeline valve flange fires and vehicle fires.
